In the cabin, you'll find an extremely comfortable layout with seating to port and starboard with large storage under the seats. The large berth is located forward, also with large storage under. The privacy head located midship to starboard. The galley is located midship to port and features a NorCold Refrigerator and One (1) Burner stove that has never been used, and a stainless steel sink. There are two table mounts in the floor to utilize a dinette table either forward or midship. Although the engine hours are currently at 230, note that there is only about 30 hours on the engines since last rebuild. There are five (5) batteries total.
